[musica Dei donum](#) (Johan van Veen - 2014.06.02)

[musica Dei donum](#)
I had never heard Ina Siedlaczek before, and I am quite impressed by her singing. She has a very beautiful voice, articulates well and is very responsive to the text. Especially the way Telemann has depicted elements in the text is not lost on her. The long lines in Erlebach's arias come off perfectly, with good dynamic shading and stylish ornamentation when it is needed.
