Beautiful, spacious readings of Prokofiev

There have been quite a few recordings of these wonderful concertos lately, but these are quite excellent. Pietsch and Macelaru play them beautifully and take their time, too, producing a richly detailed sound in a realistic and spacious acoustic. I've enjoyed these performances as much as any I can recall. Glorious, really. Short playing time aside, this disc is highly recommended.

P. S. C. Ebrey

★★★★★ Beautiful, spacious readings of Prokofiev.
